RACE COMPLETED.

A Remarkable Record for the Six Hours.

The bicycle contest which began at the Wheelery on Monday night was concluded Saturday night. The race was a hard one and required endurance to stay with it. Four different boys rode against Kercheske during the week. Albert Kaufman, however, was able to withstand the strain and finish the race, taking turns with the three others who rode against Kercheske.

Saturday night the boys rode 31 1/2 miles and Kercheske 26 1/2 miles. The total distance covered by the boys during the week was 157 1/2 miles, and that by Kercheske was 153 1/2 miles, making the average distance per hour for the boys 26 1/2 miles, and for Kercheske 25 1/2 miles.

The only thing that happened during the week to mar the success of the contest was the fact that someone tampered with Kercheske's wheel Saturday night causing it to register double. That such a thing had been done was unknown to Kercheske or to the management of the Wheelery who intended that the contest should be fair in every particular. The guilty party has since been apprehended and confessed that he, "did it just for fun."

Owing to this unfortunate occurrence Kercheske will on tomorrow evening ride one hour against the time made by the boys Saturday evening. The wheel that he will ride will be in charge of a committee.

Class Day.

Four Famous Characters in Fiction.

Charles Dana Gibson has made a great hit with his Dickens illustrations in The Ladies Home Journal. In the June number we have a rare opportunity of seeing what a great illustrator can do in one picture with four famous characters in fiction. Mr. Gibson presents Mr. and Mrs. Micawber, David Copperfield and Traddles. The long quaint curls of Mrs. Micawber, and the characteristic of her gloved hands as she "lays the case" before David Copperfield, have been admirably caught by the artist. Mr. Micawber, self-poised and satisfied, wears a calm judicial expression as he balances his glass in his hand.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. The Baccalaureate Sermon.

The annual sermon before the graduating class of the high-school was delivered at the First Baptist church last night by Rev. J. W. Clevenger. The house was well filled and the sermon was carefully prepared and well delivered and quite appropriate to the occasion.

Mr. Clevenger chose for his text the 23rd and 24th verses of the 9th chapter of Jeremiah, which reads:

"Thus sayeth the Lord, Let not the wise man glory in his wisdom, neither let the mighty man glory in his might, let not the rich man glory in his riches. But let him that glorifieth glory in this, that he understandeth and knoweth me, that I am the Lord which exercise loving-kindness, judgment, and righteousness, in the earth; for in these things I delight, saith the Lord."

His discourse was an answer to the question, "What is the highest good?" He said that man is confronted by two ideals. One as set forth by man, the other as set forth by God. Riches, power and wisdom are the ideals men too frequently strive to attain for the sake of the ideals themselves. The ideal to which God would have men strive to attain is to know, to understand and to love Him.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centers in the stomach, gently stimulates the Liver and Kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or \$1.00 per bottle at W. F. Peter's Drug Store.

NEW ENTRANCE TO NEW YORK.

Passengers via Pennsylvania Lines Now Have Choice of Three.

All are convenient locations: Cortlandt street and DeBorres street, in the downtown district, and Twenty-third street in the uptown district. The latter entrance will be formally opened May 16th, when two new and commodious ferryboats, double deckers, constructed especially for the Pennsylvania lines and furnished and finished in up-to-date style, will be placed in service between the Jersey City station and the Twenty-third street, connecting with all inbound and outbound trains over the Pennsylvania system, the same as the boats running between that station and Cortlandt street and DeBorres street, which will also be continued in daily service.

The Pennsylvania Lines' three entrances into New York enable passengers to quickly reach the business portion of the lower end of the city, as well as the hotels and the business blocks in the very heart of the great metropolis. The ride across the river is a delightful and refreshing termination to an enjoyable trip. All through trains from the west, over the Pennsylvania Lines, land passengers in New York between 8:30 a. m. and 9:40 p. m. treating them to a grand view of the city's water front; its extensive docks where at almost any time may be seen ships of many nations. The wonderful panoramas gives visitors a slight idea of the magnitude of New York. The new Twenty-third street ferry line is particularly noteworthy in this respect.

Poisons engendered by food fermenting in a dyspeptic stomach are the direct cause of rheumatism, gout, bronchitis, liver and kidney complaints, asthma, pneumonia and many nervous ailments.

These results are prevented by the use of the Shaker Digestive Cordial, a remedy discovered and prepared by the Shakers of Mount Lebanon, N. Y. It is in itself a food and has power to digest other food taken with it. Thus it rests the diseased stomach and finally masters the worst cases of dyspepsia. It acts promptly and fresh strength and increase of weight soon follows. The first dose taken immediately after eating, abates the pain and distress so dreaded by dyspeptics. Trial bottles—enough to prove its merit—10 cents. Laxol is the best medicine for children. Doctors recommend it in the place of Castor Oil.

Under the new law each township will have to sustain its own poor. The poor bills will be allowed by the county commissioners as heretofore, and paid out of the county fund, but will be charged to each township, where incurred, to be refunded. This will require a levy for the poor in each township, but will permit a decrease of the county levy after the townships begin to refund. The design of the law was probably to make the township trustees feel more keenly the responsibilities of providing for the poor, and to relieve the county townships from helping to bear the expense of the poor in towns and cities.—Ex.

### SANTA FE WRECK.

Passenger Train Goes Through a Trestle. Fifteen Injured.

ARDMORE, I. T., May 17.—A south bound passenger train on the Santa Fe road, known as the Chicago and Galveston express went through a trestle 16 miles south of here yesterday. Fifteen persons, passengers and trainmen, were injured. Several of these are seriously hurt and it is believed two will die. The accident occurred near the town of Marietta. A heavy rainstorm amounting almost to a water spout caused a sudden rise of all the small streams in that vicinity. The accident occurred at a point where a deep, narrow gulch was spanned by a wooden trestle. The foundation work supporting this trestle was undermined by the sudden rise of the little stream which flows through the gulch, and trestle went down under the heavy weight of the train. So great was the speed of the train, however, that the engine and tender, the express, mail and baggage cars and one coach passed over the narrow chasm, though the trucks of several of these cars went to the bottom 20 feet below. The coach next to the last, the one immediately in front of the Pullman, was left standing directly over the chasm, one end resting on the bank of the gulch. The Pullman remained on the track. The four coaches which were dragged by the locomotive across the broken trestle were badly wrecked. The baggage car telescoped with the passenger coach, which was the smoker, and the latter was all but demolished. The most of the injured were riding in these coaches.

### FOUR WERE KILLED.

Entire Family Almost Wiped Out by a Boiler Explosion.

RANDOLPH, Ky., May 17.—As the result of a boiler explosion at Ward's saw-mill near here, Saturday, four men were instantly killed, two others will die from their injuries, and nearly an entire family is wiped out of existence. J. D. Ward and Tom Ward, one of his sons, owners of the mill, and George Brown and Simon Kirkpatrick were killed outright. Virgil Hundley was fatally hurt. William, another of Ward's sons, had both legs broken, and is dying, while George, a third son of Ward, was badly scalded by steam. Insufficiency of water in the boiler caused the explosion. The mill was torn to pieces.

### HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is a convincing proof that the kidneys and bladder are out of order.

What to do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It cures inability to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. **Cuba Will Be to the Front in the Senate This Week.**

**FOR CUBAN BELLIGERENCY.**

Majority Predicted For Morgan's Resolution—The House Will Wait Action of the Senate—Enthusiastic Meeting in Behalf of the Insurgents at Which Gallinger Presided.

WASHINGTON, May 17.—The proceedings in the senate this week are by no means settled. Senator Morgan's joint resolution occupies the favored place on the calendar, and there is little doubt that it will be taken up late today. Still there is a slight possibility that the expected message of the president may cause a postponement and that the character of his recommendations may have a bearing that will influence the tenor of the resolution that ultimately will be adopted. The Alabama senator will not stand in the way of action in accordance with such a recommendation as the president may make upon this subject, but he will insist that it shall be independent of and that it shall in no wise interfere with his resolution providing for Cuban belligerency. There is little or no doubt that the Morgan resolution will pass when a vote is reached and the indications are that the majority for it will be greater for the recent delay. There will continue to be some opposition, and the plea will be made that any material aid given in accordance with executive recommendation is all that can be reasonably expected.

If Cuba does not occupy the entire attention of the week, much time is likely to be given to the general calendar. Senator Gear will make an effort to have the Pacific railroad bill considered, while Senator Lodge will make the same effort in behalf of the immigration bill. Senator Pettigrew will call up the resolution for the investigation of the Pacific railroad patents. The Indian appropriation bill will be brought in on a conference report, there remaining only one point of difference on the Uncomapah lands to be settled. The sundry civil conference will be postponed until Senator Allison returns to the city.

Senator Aldrich will make the opening statement in behalf of the tariff bill on the part of the majority of the finance committee on Thursday, but it will rest with individual senators whether the debate shall be continued beyond this speech at that time, and after this the senate will adjourn until the following Monday, when the debate will begin in earnest.

**House Forecasts.**

WASHINGTON, May 17.—The house leaders have not yet decided upon the methods by which they will make their response to the president's message, which will be sent to congress not later than tomorrow, asking for relief for the starving Americans in Cuba. It is probable the house will wait for the action of the senate, and thus avoid complications, as the Cuban sentiment is very strong in the lower body, and if the leaders allowed free action a very radical measure might be passed.

**SYMPATHY FOR CUBA.**

Monster Massmeeting at Washington in Behalf of the Insurgents.

WASHINGTON, May 17.—An enthusiastic audience of men and women, many of them well known in Washington, packed the Columbia theater to its doors last evening at a monster massmeeting held in behalf of the cause of the Cuban insurgents. The theater was appropriately decorated. Seated on the platform and participating in the exercises were Senators Gallinger and Allen, ex-Senator Butler of South Carolina, Rev. Hugh Johnson, pastor of the Metropolitan Methodist church; Rev. Howard Wilbur Eunis and a number of others identified with the interests of the insurgents.

**THE PORTE'S ANSWER**

**Sultan's Reply to Ambassadors Note a Great Surprise.**

**HIS DEMANDS EXORBITANT.**

**Annexation of Thessaly and Ten Million Turkish Pounds Indemnity Is the Price of Peace—Fierce Fighting in Epirus Results to the Advantage of the Greek Troops.**

CONSTANTINOPLE, May 17.—The porte has replied officially to the note of the powers and declines to agree to an armistice until the following conditions are accepted:

The annexation of Thessaly, an indemnity of 10,000,000 pounds Turkish and the abolition of the capitulations. The porte proposes that plenipotentiaries of the powers should meet at Pharsalos to discuss the terms of peace, and declares that if these conditions are declined, the Turkish army will continue to advance. The demand for the annexation of Thessaly is based upon the fact that the province was originally ceded to Greece on the advice of the powers with the object of ending brigandage and Greek incursions into Ottoman territory, the porte believing at the time that the cession would attain these objects, but the recent incursions of Greek bands and the events immediately preceding the war have proved to the contrary.

He demands an extradition treaty with Greece, and that the ports of Volo and Prevesa be kept open for vessels carrying food supplies to the Turkish troops. The ambassadors met yesterday to consider the porte's answer, which is regarded as raising an extremely grave issue. It is believed that representations will be made to the sultan personally to induce a modification of these terms, but it is foreseen that this will be very difficult owing to the attitude of the powerful old Turk party.

If the porte should prove obdurate a European conference is not improbable, although at present Russia is opposed to this. It is regarded as quite certain that the powers will not consent to a retrocession of Thessaly. Even Germany is believed to be resolute on this point, because it would involve a violation of the Berlin treaty and imperil the peace of the Balkans.

**TURKS WANT WAR.**

Nation Ready to Shed Its Last Drop of Blood.

LONDON, May 17.—A dispatch to The Standard from Constantinople says: The porte's reply to the powers is based upon a mazhata presented by the ministers to the sultan representing that Greece was responsible for compelling Turkey to declare war; that for the last 15 years Greece had ignored her engagements under the Berlin treaty, by omitting to pay indemnity, by seizing and confiscating Vakaups, or religious domains, and finally by invading Turkish soil; and that, therefore, the council was of opinion that Greece had no just claim upon him for leniency. Then following the peace proposals. The grand vizier, in submitting the mazhata, assured the sultan that the nation was prepared to shed its last drop of blood in support of such conditions of settlement. The war party threatens to dethrone the sultan if he shows any weakness.

At the grave just as the casket was being lowered into the grave a bolt of lightning struck a tree nearby, knocking ex-Governor B. At this term of court the cases of ex-Auditor T. P. Touvelle and Auditor S. S. Snyder were tried before Judge Ritchie. His decision exonerates the above mentioned officials.

**Baseballists Arrested.**

CLEVELAND, May 17.—The police made good their promise to prevent Sunday baseball in Cleveland if an attempt was made to play yesterday. At the end of the first inning between the Cleveland and Washington teams, all the players on both sides and Umpire Tim Hurst, were arrested and taken to the central police station, four miles distant, where President Robinson gave bail for the prisoners and they were released.

CELINA, O., May 17.—A decision of importance in the alleged excessive fees drawn by county officials has just been rendered by Judge Ritchie of Lima. In 1895 a committee was appointed by Judge Mooney to investigate the books of the courthouse. Its report showed alleged excessive fees to have been drawn to the amount of \$48,000. At this term of court the cases of ex-Auditor T. P. Touvelle and Auditor S. S. Snyder were tried before Judge Ritchie. His decision exonerates the above mentioned officials.

**THE PORTE'S ANSWER**

**Sultan's Reply to Ambassadors Note a Great Surprise.**

**HIS DEMANDS EXORBITANT.**

**Annexation of Thessaly and Ten Million Turkish Pounds Indemnity Is the Price of Peace—Fierce Fighting in Epirus Results to the Advantage of the Greek Troops.**

CONSTANTINOPLE, May 17.—The porte has replied officially to the note of the powers and declines to agree to an armistice until the following conditions are accepted:

The annexation of Thessaly, an indemnity of 10,000,000 pounds Turkish and the abolition of the capitulations. The porte proposes that plenipotentiaries of the powers should meet at Pharsalos to discuss the terms of peace, and declares that if these conditions are declined, the Turkish army will continue to advance. The demand for the annexation of Thessaly is based upon the fact that the province was originally ceded to Greece on the advice of the powers with the object of ending brigandage and Greek incursions into Ottoman territory, the porte believing at the time that the cession would attain these objects, but the recent incursions of Greek bands and the events immediately preceding the war have proved to the contrary.

He demands an extradition treaty with Greece, and that the ports of Volo and Prevesa be kept open for vessels carrying food supplies to the Turkish troops. The ambassadors met yesterday to consider the porte's answer, which is regarded as raising an extremely grave issue. It is believed that representations will be made to the sultan personally to induce a modification of these terms, but it is foreseen that this will be very difficult owing to the attitude of the powerful old Turk party.

If the porte should prove obdurate a European conference is not improbable, although at present Russia is opposed to this. It is regarded as quite certain that the powers will not consent to a retrocession of Thessaly. Even Germany is believed to be resolute on this point, because it would involve a violation of the Berlin treaty and imperil the peace of the Balkans.

**TURKS WANT WAR.**

Nation Ready to Shed Its Last Drop of Blood.

LONDON, May 17.—A dispatch to The Standard from Constantinople says: The porte's reply to the powers is based upon a mazhata presented by the ministers to the sultan representing that Greece was responsible for compelling Turkey to declare war; that for the last 15 years Greece had ignored her engagements under the Berlin treaty, by omitting to pay indemnity, by seizing and confiscating Vakaups, or religious domains, and finally by invading Turkish soil; and that, therefore, the council was of opinion that Greece had no just claim upon him for leniency. Then following the peace proposals. The grand vizier, in submitting the mazhata, assured the sultan that the nation was prepared to shed its last drop of blood in support of such conditions of settlement. The war party threatens to dethrone the sultan if he shows any weakness.

Bolt of Lightning Shocks Two Ex-Governors at the Grave.

WACO, Tex., May 17.—The obsequies of the late ex-Senator Richard Coke were solemn and impressive in the extreme. The pallbearers were of the most distinguished men of Texas. A vast multitude of people were present, many hundreds being from different parts of the state. At the grave just as the casket was being lowered into the grave a bolt of lightning struck a tree nearby, knocking ex-Governor B. Hubbard, one of the pallbearers to his knees, shocking ex-Governor Ross and a number of others severely. A number of teams ran away and there came near being a tragedy to end the sad occasion.

**Heavy Losses at Griboro.**

The losses at Griboro were the heaviest since the beginning of the war. Seven officers were killed. Requisitions were sung yesterday in all the churches and the opposition papers accuse the government of wantonly sanctioning needless bloodshed.

I learn that the advance was due to Colonel Manos, who desired to regain the Greek army's lost prestige. The government considered his plan a very hazardous one but finally consented. The fierceness of the fighting at Griboro, requiring reinforcements, compelled him to abandon the original plan and probably all have now returned to Arta. The girl standardbearer of the Botzaris volunteers was in the thick of the hand to hand conflict.

### Sick Headache.

Naturalgia and Extreme Nervousness.

EVER since I was eighteen years old until I learned of Dr. Miles' Restorative Remedies, I suffered from sick headache and extreme nervousness and dyspepsia. In time heart disease developed. I was treated by several doctors with no relief. Severe palpitation with pain in left breast, shortness of breath, and smothering spells made me most miserable. I procured Dr. Miles' Restorative Nervine and New Heart Cure and took them alternately as directed. Improvement began at once and increased so rapidly that inside of six months I increased thirty six pounds in weight. All pain in the heart is gone, and the nervousness has wholly left me."

The quicker the senate disposes of the tariff bill, consistently with honest intelligent work on it, the better the country will be pleased.

One of the signs of future prosperity in this country is the interest taken in the culture of the sugar beet. The \$100,000,000 sent abroad annually for sugar would be a welcome addition to the income of our farmers.

The protest of the powers against the Armenian massacres has resulted in the dismemberment of Greece, and the mobilization of a Turkish army of 400,000. Humanity may well ask to be spared any more protests of the same kind.

The attorney general of New York has begun to enforce the anti-trust law in that state by proceeding against the railroads which are charged with being a combination to control the supply of coal so as to maintain prices. It is the first effort in that line, consequently the result will be awaited with much interest.

The Kentucky legislature has wisely determined to stop mob lawlessness in the state. The law which has passed the Kentucky senate is one of the most vigorous protests against mob law ever placed upon the statute books of any state. The lawmakers of Kentucky mean business, and have started in none to soon.

And now, just as we were all finally convinced that those airship stories were fakes, and that no such thing existed, along comes Prof. Barnard, of Nashville, and upsets our conclusions by riding in a genuine airship in broad daylight. It makes us tired to change our mind so often.—Commercial Tribune.

It was Ben Franklin, the master printer and shrewd philosopher who said, "Type talks and he is wise who makes it advocate his cause." This hundred-year old affirmation has been proved and re-proved until advertising is regarded as one of the essential investments by the most successful business men.

The greatness of Washington is again emphasized by the unveiling of the new monument at Philadelphia.

Washington stands high among the great intellectual forces of the world, but yet higher among the moral forces. He taught his countrymen the virtues of truthfulness, of frugality, of simple independence. He taught the need of strength to maintain national independence, and he warned future generations against the wanton use of national strength for purposes of aggression. He was distinctively American; religious, but not fanatic; dignified, but not ostentatious; strong, but tender. He is an enduring model of character.

Nightingale Concert.  
The concert given by the Nightingale band Saturday evening was highly appreciated by the many people who were on the streets. These Saturday night concerts are proving quite popular.

The man who did business from a buggy at the corner of Second and Chestnut streets Saturday afternoon did not have many customers, but those he did have were good ones. Probably the only reason these could give for patronizing this stranger was that they thought they were getting a watch and twenty dollars for fifteen dollars.

### THE CHIPMUNK.

How He Rouses Himself and Welcomes the Spring.

As the woodchuck sleeps away the bitterness of cold, so in his narrow chamber sleeps the chipmunk. Happy little hermit, lover of the sun, mate of the song sparrow and the butterfly, what a goodly and hopeful token of the earth's renewed life is he, verifying the promises of his own chaffers, the squirrel cups, set in the warmest corners of the woods, with libations of dew and shower drops, of the bluebird's carol, the sparrow's song of spring!

He comes forth from his long night into the fullness of the sunnier day, to proclaim his awakening to his summer comrades, a gay recluse clad all in the motley, a jester, maybe, yet no fool.

His voice, for all its monotony, is inspiring of gladness and contentment, whether he utters his thin, sharp chirp or full mouthed cluck, or laughs a chattering mockery as he scurries in at his narrow door.

He winds along his crooked pathway of the fence rails and forages for half forgotten puts in the familiar grounds, brown with strewn leaves or dun with dead grass. Sometimes he ventures to the top rail, and climbs to a giddy ten foot height on a tree, whence he looks abroad, wondering, on the wide expanse of an acre.

Music hath charms for him, and you may enthrall him with a softly whistled tune and entice him to frolic with a herd's grass head gently moved before him.

When the fairies have made the white curd of mallow blossoms into cheese for the children and the chipmunk, it is a pretty sight to see him gathering his share handily and toothily stripping off the green covers, filling his cheek pouches with the dairy disks and scampering away to the cellar with his ungrudging portion.

Alack the day when the sweets of the sprouting corn tempt him to turn roger for then he becomes a banded outlaw, and the sudden thunder of the gun announces his tragic fate. He keeps well the secret of constructing his cunning house, without a show of heaped or scattered soil at its entrance. Bearing himself honestly and escaping his enemies, the cat, the hawk and the boy, he lives a long day of happy, inoffensive life. Then when the filmy curtain of the Indian summer falls upon the year again he bids us a long good night.—New England Fields and Woods.

### HER HAPPY DAY.

A CHARMING STORY OF MEDICINE AND MARRIAGE.

Two Open Letters From a Chicago Girl—How Happiness Came to Her.

Among the tens of thousands of women who apply to Mrs. Pinkham for advice and are cured, are many who wish the facts in their cases made public, but do not give permission to publish their names for reasons as obvious as in the following, and no name is ever published without the writer's authority; this is a bond of faith which Mrs. Pinkham has never broken.

Chicago, Jan. 5th, '95.  
My dear Mrs. Pinkham—  
A friend of mine, Mrs. —, wants me to write you, because she says: "you did her so much good." I am desperate. Am nineteen years of age, tall, and would like to give you a testimonial to publish, but father would not allow it. I shall be married in September, and as we go to Boston, will call upon you. How can I prove my gratitude? \* \* \* \* \*  
LUCY E. W.

Chicago, June 16th, '95.  
My dear Mrs. Pinkham—  
This is a happy day. I am well and gaining weight daily, but shall continue the treatment and Vegetable Compound during the summer, as you suggest. Uncle knows nothing about what you have done for me, because it would make things very unpleasant in the family. I would like to give you a testimonial to publish, but father would not allow it. I shall be married in September, and as we go to Boston, will call upon you. How can I prove my gratitude? \* \* \* \* \*  
LUCY E. W.

Just such cases as the above leak out in women's circles, and that is why the confidence of the women of America is bestowed upon Mrs. Pinkham.

Why are not physicians more candid with women when suffering from such ailments?  
Women want the truth, and if they cannot get it from their doctor, will seek it elsewhere.

### NOT EXACTLY A BABY.

How a Woman Played a Trick on a Cable Car Conductor.

"John, dear, some one ought to speak to that woman. Ser, she's smother!" "I'm not running this kid." "Well, I shall certainly inform the authorities. It's over 15 minutes that dear little thing hasn't had a breath of air. Won't you call the police?"

Of course this dialogue was furnished by husband and wife. Scene—a cable car bound down town. The character spoken of as "that woman" was a female of uncertain age and decided sternness. She boarded the car at Fifty-ninth street. In her arms she carried the "kid" referred to almost to suffocation, the woman hugged her charge. Not even the end of its tiny nose nor a wisp of baby hair peeped out from the folds of the long cloak. The woman smuggled and cuddled the bundled child, and never an infantile wail or a gasp for breath aroused the wondering passengers to action. When the car reached Thirty-fourth street, "that woman," still hugging her bundle, left the car. The husband and wife followed. The car sped on.

Safe on the sidewalk, the woman paused, shook the folds of the baby's cloak, and deposited on the pavement a long eared, wet nosed, watery eyed spaniel. That was all.

"Well, John, I'm beat," said the wife. "So's the conductor and the company," responded John. "She smuggled the beast and got the best of the company. I was smart enough to mind my own business. Come on."—New York Sun.

### Tunneling the Strait of Messina.

Engineering achievements and possibilities, from the modern point of view, are receiving an additional illustration in the case of the projected tunnel between the mainland of Italy and the island of Sicily, plans and details of which, in model, as executed by the Italian civil engineer De Johannis, have attracted much attention at the University of Padua. After thorough and careful studies of the strait of Messina, its varying depths, the nature of the ground and of all other conditions which might assist or interfere with such an undertaking, De Johannis decided that the beginning of the tunnel should be near San Giovanni di Sanitello, at the foot of the Aspromonte mountain range, the mouth on the other side to be located on the degli Inglesi plain. The entire tunnel will be nearly two miles long and will consist in the main of two shafts of about 10,000 feet each, descending at a grade not exceeding 32 feet in each 1,000. Such a tunnel is thought preferable to a bridge that would involve such a great span and wind exposure.—Harper's Round Table.

### The Best Remedy for Rheumatism.

From the Fairhaven, N. Y., Register.

Mr. James Rowland of this village, states that for twenty-five years his wife has been a sufferer from rheumatism. A few nights ago she was in such pain that she was nearly crazy. She sent Mr. Rowland for the doctor, but he had read of Chamberlain's Pain Balm and instead of going for the physician he went to the store and secured a bottle of it. His wife did not approve of Mr. Rowland's purchase at first, but nevertheless applied the Balm thoroughly and in an hour's time was able to go to sleep. She now applies it whenever she feels an ache or a pain and finds that it always gives relief. He says that no medicine which she had used ever did her as much good. ### WRECK ON THE VANDALIA.

Thirteen Cars Go Over a Twenty-Foot Embankment.

PLAINFIELD, Ind., May 17.—A freight wreck occurred on the Vandalia Saturday caused by the train breaking in two while coming down the grade just west of town. Thirteen loaded cars left the track and rolled down both sides of the embankment, which is 20 feet high. A tramp who was stealing a ride was seriously injured. He says there were four others on the train, but so far they have not been found. It is thought by some that they are covered up by oats, wheat and corn.

### Carbonated Birds.

ANDERSON, Ind., May 17.—Workmen at the Columbia Encaustic tileworks, while tearing down one of the furnaces Saturday, came upon four birds that had fallen in the furnace while flying across its mouth as hundreds of others had. They were cramped somewhat but were perfect even to the eyes and tongue. Examination revealed the fact that they were carbonated and were as hard as flint. Every feather is perfectly preserved but now in rock. Chemical conditions heretofore unknown produced the result.

### Held in \$10,000 Bond for Murder.

SOUTH BEND, Ind., May 17.—James Mullany, the Lake Shore and Michigan Southern railroad detective, charged with the murder of Policeman Christiansen, had his preliminary hearing Saturday before the mayor and was bound over to court in the sum of \$10,000. Detective Carney of Elkhart was also placed under heavy bond to appear as a witness. The feeling is so strong against Mullany that it is hardly probable that he will be tried here.

### Fort Wayne Courthouse Bids.

FORT WAYNE, May 17.—The opening of bids for building the new courthouse took place late Saturday. The lowest bid was \$479,330 by a St. Louis firm. The one home firm was just \$1,000 higher. The commissioners will decide next Thursday and the successful bidder will be required to file a bond and commence work immediately.

OLD MISSOURI HARMONY.

Annual Celebration of the Class at Morristown Next Sunday.

MORRISTOWN, Ind., May 17.—Next Sunday will be the annual celebration here of the Old Missouri Harmony class. The organization is composed of old men and women who attended singingschool together way back in the '30's and '40's. In 1872 the old folks got together and organized and since then the fourth Sunday in May is always celebrated. The organization took its name from the first book used by the singingschool, "The Missouri Harmony." Every year the town is crowded to hear the old folks sing. The oldest member of the class is 82 and the youngest is almost 70. Dr. McGunther led the class from 1887 to the time of his death in 1884.

### HER HAPPY DAY.

A CHARMING STORY OF MEDICINE AND MARRIAGE.

Two Open Letters From a Chicago Girl—How Happiness Came to Her.

Among the tens of thousands of women who apply to Mrs. Pinkham for advice and are cured, are many who wish the facts in their cases made public, but do not give permission to publish their names for reasons as obvious as in the following, and no name is ever published without the writer's authority; this is a bond of faith which Mrs. Pinkham has never broken.

Chicago, Jan. 5th, '95.  
My dear Mrs. Pinkham—  
A friend of mine, Mrs. —, wants me to write you, because she says: "you did her so much good." I am desperate. Am nineteen years of age, tall, and would like to give you a testimonial to publish, but father would not allow it. I shall be married in September, and as we go to Boston, will call upon you. How can I prove my gratitude? \* \* \* \* \*

Just such cases as the above leak out in women's circles, and that is why the confidence of the women of America is bestowed upon Mrs. Pinkham.

Why are not physicians more candid with women when suffering from such ailments?  
Women want the truth, and if they cannot get it from their doctor, will seek it elsewhere.

**NEW ENTRANCE TO NEW YORK.**

Passengers via Pennsylvania Lines Now Have Choice of Three.

All are convenient locations: Cortlandt street and DeBrosses street, in the downtown district, and Twenty-third street in the uptown district. The latter entrance will be formally opened May 16th, when two new and commodious ferriesboats, double deckers, constructed especially for the Pennsylvania lines and furnished and finished in up-to-date style, will be placed in service between the Jersey City station and the Twenty-third street, connecting with all inbound and outbound trains over the Pennsylvania system, the same as the boats running between that station and Cortlandt street and DeBrosses street, which will also be continued in daily service.

The Pennsylvania Lines' three entrances into New York enable passengers to quickly reach the business portion of the lower end of the city, as well as the hotels and the business blocks in the very heart of the great metropolis. The ride across the river is a delightful and refreshing termination to an enjoyable trip. All through trains from the west, over the Pennsylvania Lines, land passengers in New York between 8:30 a. m. and 9:40 p. m. treating them to a grand view of the city's water front; its extensive docks where at almost any time may be seen ships of many nations. The wonderful panorama gives visitors a slight idea of the magnitude of New York. The new Twenty-third street ferry line is particularly noteworthy in this respect.

Poisons engendered by food fermenting in a dyspeptic stomach are the direct cause of rheumatism, gout, bronchitis, liver and kidney complaints, asthma, pneumonia and many nervous ailments.

These results are prevented by the use of the Shaker Digestive Cordial, a remedy discovered and prepared by the Shakers of Mount Lebanon, N. Y. It is in itself a food and has power to digest other food taken with it. Thus it rests the diseased stomach and finally masters the worst cases of dyspepsia. It acts promptly and fresh strength and increase of weight soon follows. The first dose taken immediately after eating, abates the pain and distress so dreaded by dyspeptics. Trial bottles—enough to prove its merit—10 cents.

Under the new law each township will have to sustain its own poor. The poor bills will be allowed by the county commissioners as heretofore, and paid out of the county fund, but will be charged to each township, where incurred, to be refunded. This will require a levy for the poor in each township, but will permit a decrease of the county levy after the townships begin to refund. The design of the law was probably to make the township trustees feel more keenly the responsibilities of providing for the poor, and to relieve the county townships from helping to bear the expense of the poor in towns and cities.—Ex.

**Passenger Train Goes Through a Trestle. Fifteen Injured.**

ARDMORE, I. T., May 17.—A south bound passenger train on the Santa Fe road, known as the Chicago and Galveston express went through a trestle 16 miles south of here yesterday. Fifteen persons, passengers and trainmen, were injured. Several of these are seriously hurt and it is believed two will die. The accident occurred near the town of Marietta. A heavy rainstorm amounting almost to a water spout caused a sudden rise of all the small streams in that vicinity. The accident occurred at a point where a deep, narrow gulch was spanned by a wooden trestle. The foundation work supporting this trestle was undermined by the sudden rise of the little stream which flows through the gulch, and trestle went down under the heavy weight of the train. So great was the speed of the train, however, that the engine and tender, the express, mail and baggage cars and one coach passed over the narrow chasm, though the trucks of several of these cars went to the bottom 20 feet below. The coach next to the last, the one immediately in front of the Pullman, was left standing directly over the chasm, one end resting on the bank of the gulch. The Pullman remained on the track. The four coaches which were dragged by the locomotive across the broken trestle were badly wrecked. The baggage car telescoped with the passenger coach, which was the smoker, and the latter was all but demolished. The most of the injured were riding in these coaches.

Entire Family Almost Wiped Out by a Boiler Explosion.

RANDOLPH, Ky., May 17.—As the result of a boiler explosion at Ward's saw-mill near here, Saturday, four men were instantly killed, two others will die from their injuries, and nearly an entire family is wiped out of existence. J. D. Ward and Tom Ward, one of his sons, owners of the mill, and George Brown and Simon Kirkpatrick were killed outright. Virgil Hundley was fatally hurt. William, another of Ward's sons, had both legs broken, and is dying, while George, a third son of Ward, was badly scalded by steam. Insufficiency of water in the boiler caused the explosion. The mill was torn to pieces.

Yours truly,

**HOW TO FIND OUT.**

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is a so convincing proof that the kidneys and bladder are out of order.

**What to do.**

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness.
